

# Microblasting Equipment PEENMATIC 1500 ZSF-2

## Description of equipment

The PEENMATIC 1500 ZSF-2 is an automatic working conveyor belt microblasting equipment for flat workpieces, which are guided through two microblasting equipments with a continuously variable speed.

With an additional handling device or a transfer station this microblasting equipment offers moreover the possibility to microblast the flat parts on the top side and / or on the bottom side.

Because actually two completely separated microblasting equipments are in use, it is possible to work with different microblasting agents with different parameters.

<b>Technical data:</b>	- Microblasting cabins	w 2 x 550 x d 1'500 x h 1'900 mm
	- Total conveyor belt equipment	w 2'200 x d 5'300 x h 2'600 mm
	- Operating voltage	3 x 400 V + N + PE / 50 Hz
	- Power consumption	6,5 kW, including microfilter unit
	- Conveyor speed	10 cm up to 2 metres per minute

All data are given without liability on our part. We reserve the right to modify constructional design at any time.
