

# Microblasting Equipment PEENMATIC 850 SDA

## Description of equipment:

The microblasting equipment PEENMATIC 850 SDA is provided alternatively with a vertical axis or with a horizontal axis.

There are 1 to 3 special microblasting pistols mounted on this axis in order to ensure an automatic, regular microblasting of the parts fastened on the rotary table.

The rotary speed and the lifting speed can be adjusted continuously.

An additional manual microblasting pistol can be installed alternatively on the left or on the right side.

## Technical data:

- Microblasting equipment	Width 1'500 x depth 1'200 x height 2'700 mm
- Usable space per side	Width 800 x depth 800 x height 600 mm
- Operating voltage:	3 x 400 VAC + N + PE / 50/60 Hz
- Power consumption	4,5 kW, including microfilter
- Compressed air	6 bar

All data are given without liability on our part. We reserve the right to modify constructional design at any time.
